Professional Summary:

- Frontend Engineer with 3.5 years of experience in developing scalable and high-performance web applications using Angular.
- Strong expertise in building responsive and user-friendly interfaces using HTML5, CSS3, JavaScript, TypeScript, and Bootstrap.
- Proficient in Angular concepts including component-based architecture, routing, dependency injection, and Reactive Forms.
- Experienced in integrating RESTful APIs and handling dynamic data with efficient data processing techniques.
- Skilled in developing reusable UI components and optimizing performance using lazy loading and best practices
- Hands-on experience in implementing responsive design and ensuring cross-browser compatibility.
- Familiar with Agile (Scrum) methodologies and version control using Git.
- Strong problem-solving skills with the ability to quickly adapt to new technologies and project requirements.

Technical Skills:

- Frontend: Angular (v2+), TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Bootstrap
- Concepts: Component-Based Architecture, Routing, Reactive Forms, Lazy Loading
- Tools: Git, Angular CLI, Visual Studio Code
- Methodologies: Agile (Scrum)

Professional Experience:

- Working as a **Senior Associate Consultant** at **Infosys Limited,** Bangalore from Dec 2022 - present.

Projects:

Project : TKE- X- Power

Role : Senior Associate Consultant

Duration : Mar 2024 - Present

Description:

An enterprise web application designed to streamline the elevator sales process from initial qualification to final order completion. The system captures customer requirements through structured qualification and survey steps, and automatically generates optimized configurations that can be reviewed and customized.

It enables dynamic generation of quotations, technical drawings, and order forms, along with scheduling support for shipment and installation. The application improves sales efficiency by reducing manual effort, minimizing errors, and accelerating the overall order processing lifecycle.

Roles and Responsibilities:

- Engineered responsive and high-performance UI components using Angular, TypeScript, HTML5, CSS3, and Bootstrap.
- Built reusable components such as forms, tables, filters, dropdowns, and modals using Angular component architecture.
- Utilized Bootstrap for responsive layout design, grid system implementation, and consistent styling across the application.
- Implemented routing and role-based navigation using Angular Router.
- Developed complex Reactive Forms with validations, dynamic controls, and error handling.
- Integrated RESTful APIs and implemented pagination, filtering, and sorting for large datasets.
- Optimized application performance using lazy loading, efficient change detection, and DOM optimization techniques.
- Ensured cross-browser compatibility and consistent UI behavior across supported devices.
- Collaborated in Agile environment using Azure DevOps for sprint planning and tracking.
- Participated in code reviews, debugging, and release support to maintain high-quality deliverables.
- Documented UI workflows, reusable components, and user interaction guidelines.

Project : TKE- XLR8

Role : Associate Consultant

Duration : Dec-2022 to Mar-2024

Description:

A web-based solution enabling sales teams to efficiently manage the elevator sales lifecycle, including configuration, quotation generation, and order processing. Supports dynamic customization of elevator specifications and automates key documentation processes. Incorporates scheduling and shipment and installation activities, delivering a unified, scalable, and efficient workflow for end-to-end sales operations.

Roles and Responsibilities:

- Built and enhanced UI screens using Angular, TypeScript, HTML5, CSS3, and JavaScript.
- Applied core Angular concepts such as dependency injection and two-way data binding.
- Integrated RESTful APIs using HTTP services and implemented pagination.
- Contributed to the development and implementation of the front-end architecture.
- Developed and managed Reactive Forms for validations, error handling, and complex form interactions.

Qualification:

- B.Tech (Computer Science and Engineering) from Kuppam Engineering College, Andhra Pradesh
